DETAILED ACTION

1. Claims 1-7, 9 and 11-12 are pending in this application.

Response to Amendment

2. Applicant's amendment filed 6/19/2007 in response to the previous Office Action (3/28/2007) is acknowledged. Rejections of claims 1-11 under 35 U.S.C. § 112, second paragraph (items 2a-2e) and 35 U.S.C. 101 rejection (item 3) have been obviated. Even though applicants overcome the rejections raised in the previous Office Action, applicant's amendment raises new issue that needs further rejection.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-7, 9 and 11-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 1 or elsewhere in the claims, the term "Het" is not clear. What is the size of the ring? What is the number and nature of the heteroatoms? Can the ring be fused or spiroconnected to another ring, and if so, what kind of ring? Can the ring be bridged? Unsaturated? Cf *In re Wiggins*, 179 USPQ 421, 423. It is recommended that applicants recite "Het" as it was done in the previous claim set. Note that applicants deleted the definitions of "Het" and "Ar" in this claim set for no

apparent reason. It is also recommended that applicants also recite "Ar" back into the claims.

Claim Objections

4. Claim 6 is objected to because of the following informalities: the phrase "according to any one of claims 5" is a typographical error. It should read as "according to claim 5".

It is also recommended that applicants replace in claim 3 "according to any one of the preceding claims" by "according to claim 1 or 2" to be consistent with claim 4.

5. Claim 7 is objected to because it duplicates claim 1. It is recommended that applicants delete this claim.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 1624

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
